
C-Scope International's Quality Policy

Our policy is to provide a range of Metal Detectors, Pipe and Cable locators and related products and services, that meet relevant regulatory requirements and meet or exceed our customer's expectations.

We are committed to and operate a Quality Management System conforming to the standard ISO 9001:2008.

Objectives are identified, defined, reviewed and recorded at the Management Review Meetings.

We monitor our products, services, processes, customer feedback and this policy with the objectives of: -

- a) Maintaining the effectiveness of the Quality System
- b) Continual improvement

We individually and collectively, are responsible for implementing this **Quality Policy**.
